Title: **El Nuevo Sonido**

In Berlin (1996) seven musicians from the different worlds ("dos mundos") of Latin America and Europe and all from completely different backgrounds joined forces.

**Mariachi dos Mundos** define the appealing sounds of the Mexican Mariachi in a new way. They play the happy familiar themes of Mexican music side by side with the sounds of melancholy *boleros*, swinging *cumbias* and laid-back Cuban *son*, using classical string arrangements along with wild interludes from the brass section. On their 3<sup>rd</sup> CD with ORIENTE they improve their fascinating mixture of dance rhythms and musical virtuosity with just a pinch of self-irony.

Still taking traditional songs as their starting point, these musicians constantly extend their musical repertoire with their own compositions and with new arrangements of Latin classics like *Perfidia* and *Samba pa ti*.
