Title: Śpiewam życie – I sing life

Since years both EDYTA GEPPERT and KROKE are constituents of the Polish music scene. But whereas Kroke are well known outside Poland meanwhile, Edyta is a „sleeper“ beyond the Polish border, only known to specialists. So it's high time for a change, and it's ORIENTE MUSIK to give it a trial.

For a long time Edyta Geppert has deserved the favour of the Polish audience as a striking singer. She released a bunch of LPs and CDs and performed countless concerts and tours throughout Poland. Her versatility and expressiveness make her the “grande dame” of Polish chanson, a living proof for the musical treasures that wait for being unearthed in Eastern Europe.

The CD „Śpiewam życie – I Sing Life“ bursts the chains of categories like world music, Folk or Chanson. The distinctive instrumental style of Kroke, based on their Jewish and East European roots, joins perfectly the expressive voice of Edyta and the ambitious lyrics of the Polish songs.

We think it's absolutely worth to listen to.
