Eminently charming and playful appear Kroke's new compositions, recorded with the original Trio setup.

Back to the roots? Certainly, in a way. The waiver of the drums means a reinforcement of viola, accordion and bass. Coming to the fore (again), equally entitled and responsible for both melody and rhythm.

OUT OF SIGHT points out familiar and surprisingly new facets of Kroke's musical universe, from Kukurba's oriental-influenced vocal improvisations („Mecalakuku“) to the frisky „Life As It Is“ and the frivolous allure of „A Luftmentsch“.

Kroke's creative power, joining their traditions and their very own view on „Life as it is“, is still going strong – and exploring.
